

Revolver - When You're Away

**Hey hey don't runaway, I'm not what they say, no I won't do you no harm
Sometimes looks can be deceptive, though it's hard to accept, my intentions
are good**

**Love me, don't say you're sorry, am I talking sense? Oh please let me take
a chance**

Tonight's not what I expected, with all due respect, it all happened so fast

**Take my hand, don't understand, that's how it began
Stay with me, I'm begging thee, no one else around (ever...)**

**He goes round and round and oh may be blinded when you're away
We'll be keeping an eye on him don't you get worried when you're away
There's no time for regrets, no need to be scared, I just don't do what I'm told
Well I've made up my mind, it's all clearer now, I can't live without you**

**Take my hand, don't understand, that's how it began
Stay with me, I'm begging thee, no one else around (ever...)**

**He goes round and round and oh may be blinded when you're away
We'll be keeping an eye on him don't you get worried when you're away**

**Wasting our time in hellos and goodbyes was all we seemed to do
It couldn't last now it's part of the past and I'm glad it is true**

**He goes round and round and oh may be blinded when you're away
We'll be keeping an eye on him don't you get worried when you're away**
