

The Burns Sisters - Glory

**My heart is heavy, my journey long
But I carry with me the night bird's song
And when my life has got me down
I find my peace in the setting sun**

**I sing the glory of the mountains high
Of the crystal waters and the purple sky
Of Sister Moon and Brother Sun
I sing the glory of the world as one**

**A true believer I've always been
That somehow someday the world would mend
The only gift, my child, I need for you
Is my love of beauty in this earth for you
I sing the glory of the mountains high
Of the crystal waters and the purple sky
Of Sister Moon and Brother Sun
I sing the glory of the world as one**
