**I'ma show you what it truly means to like
Treat you right
You could truly be my Wife**

**We are love, like what is next to light
Gimme hug, like f*** it, let's get right**

**Sleep on the couch
Looking at your booty poking out
What you dreaming about
Sweet like peaches & cream in my mouth
And every time you awake
I wanna get you out
Take you out on a date
Fine dining away

It's all on me

**First here go get your hair done
Then stop by the nail salon
And while their doing your nails
Have them let you put your feet up**

**I'm talking a & Mani & Pedi, for sure
And he's gonna hit it galore
On the bed and kitchen floor
Make you bed and scream for more**

Braids on the side
Mohawk from the front to the back**

You ain't gotta be rude with a mouth
You can still be you be cute and kick him out**

But just the other day, what you do?
Went Ghost with no shame**

But the spirit within be causing lots of ppl

Some humans really hate to see you smile
Have a great day or even disagree & reconcile**

**That's for childs
Or children, rather
We doing & healing better
Anything other than that
Is killing women n fellas**

**If the energy's right
They're showing you love
Giving you light
And they roll out the rug**

**That means the frequency's right
They might be someone to trust
You don't want smoke like chimney
Leave em right in the dust**

Pop the locks
Let her eat and breathe
Another comes around
See if she precedes to leave
Let her wonder how is

A woman who at least believe
