

Fall Out Boy - Heartbreak Feels So Good

**No matter what they tell you
The future's up for grabs and no
No matter what they sell you
Is there a word for bad miracle?
Nobody said the road was endless
Nobody said the climb was friend-less
But could we please pretend this
What if**

**It was an uphill battle but they didn't know, but they didn't know
We were gonna use the roads as a ramp to take off
We could cry a little, cry a lot
Don't stop dancing, don't dare stop
We'll cry later, or cry now
You'll know it's heartbreak
We could dance the tears away, emancipate ourselves
We'll cry later, or cry now but baby**

**Heartbreak feels so good
Heartbreak feels so good
Heartbreak feels good**

**We said we'd never grow up
It's open season on blue moons
Life from a screen of messages
I'm sad**

**It was an uphill battle but they didn't know, but they didn't know
We were gonna use the roads as a ramp to take off

We could cry a little, cry a lot**

**Don't stop dancing, don't dare stop
We'll cry later, or cry now
You'll know it's heartbreak
We could dance the tears away, emancipate ourselves
We'll cry later, or cry now but baby
Heartbreak feels so good
Heartbreak feels so good
Heartbreak feels good**

**It was an uphill battle but they didn't know, but they didn't know
We were gonna use the roads as a ramp to take off**

**We could cry a little, cry a lot
Don't stop dancing, don't dare start
We'll cry later, or cry now
You'll know it's heartbreak
We could dance the tears away, emancipate ourselves
We'll cry later, or cry now but baby**

**Heartbreak feels good
Heartbreak feels good**
