

## **Gentleman - Ina Time Like Now**

**Certain things not change**

**Life is joy and its sorrow**

**And Mama's always feeling the pain**

**Daddy's always working for a brighter tomorrow**

**Under agony and strain**

**(Ina time like now)**

**Stand up to the face of the struggle**

**No more will you step aside**

**(Ina time like now)**

**When the whole wide world is in trouble**

**The fittest of the fittest will survive**

**(Ina time like now)**

**Stand up to the face of the struggle**

**No more will you step aside**

**(Ina time like now)**

**When the whole wide world is in trouble**

**Fittest of the fittest will survive**

**Root alone nuh bear the fruit on this ya tree of living**

**And for the loot some man a shoot**

**For this dem need forgiving**

**The bigger heads dem undercover**

**Guns and drugs dem shipping**

**Not even little mercy come dripping**

**It's so hard for us to find some things we can believe in**

**Everything around us so attractive yet deceiving**

**Peace within ourself is worth**

**The hardship of achieving**

**Hold on tight till we leave**

**(In a time like now)**

**Stand up to the face of the struggle**

**No more will you step aside**

**(In a time like now)**

**When the whole wide world is in trouble**

**Fittest of the fittest will survive**

**(In a time like now)**

**Stand up to the face of the struggle**

**No more will you step aside**

**(In a time like now)**

**When the whole wide world is in trouble**

**Fittest of the fittest will survive**

**Never be afraid that you might fail**

**Cause sometimes our train will come out from the rail**

**Shall not to put your soul or your body out for sale**

**You be like a prisoner charged without bail**

**If hope should disappear we ain't in a real of a trouble**

**You got to keep your head up for sure**

**And how we fit the pieces to the big jigsaw puzzle**

**Destruction is knocking on your door**

**(In a time like now)**

**Stand up to the face of the struggle**

**No more will you step aside**

**(In a time like now)**

**When the whole wide world is in trouble**

**Fittest of the fittest will survive**

**(In a time like now)**

**Stand up to the face of the struggle**

**No more will you step aside**

**(In a time like now)**

**When the whole wide world is in trouble**

**Fittest of the fittest will survive**
