

CAIRO! - Silent Winter

**Frozen in time, the picture of a moment that's lasting forever
Waiting for someone, or something come to tell of
The day my tomorrow passed away**

**It's a Silent Winter without you
Silent Winter ... someone get me through this
Silent Winter**

**King's Four - it's my move, but the game in play is ending
I reach for my queen, but she's gone
Sometimes I don't understand the reason
Why we need to carry on -
It's a Silent Winter without you
Silent Winter ... someone get me through this
Silent Winter**

**A laughing voice disappears
Time and time goes on
Snow falls on deafened ears
We belong in a time of our own**

**Red rain of sand, falling through my window
The thief hangs beheaded in the square
I'm lost, but the hourglass is empty
If only I could hear your voice again ...**

**It's a Silent Winter without you
Silent Winter ... someone get me through this
Silent Winter**
