

Revolver - Balulalow

**You lay there till the end of the day
Hiding away a few needles in the hay
Cause all you know is time won't stop**

**You get up when you can see the moon
By the window, but you think it's too soon
Some people they're still running in the street**

**You wait there and you don't take a side
You keep floating and you sing all the time
And after all the world stands still
You go out to the river at dawn**

**You walk around, trying to keep yourself warm
Until the day comes up**

Go where you want to but don't look back (x4)
