

Pureojuice - Dragon Ball UK Drill

Vegeta, what does the scouter say about his power level?

It's over 9000!

What 9000?

I don't care about man's power level

I fusion with bro then we Gogeta

Wherever they are instant transmission

Bang that KA-MEH-AMEH-AMEH HA

Now he's in the sky flying nimbus

Assassin hit known to make their hearts quit

I make the opps miss got ultra instincts

I'm never lacking got the stick like Whis

I don't care about man's power level

I fusion with bro then we Gogeta

Wherever they are instant transmission

Bang that KA-MEH-AMEH-AMEH HA

Now he's in the sky flying nimbus

Assassin hit known to make their hearts quit

I make the opps miss got ultra instincts

I'm never lacking got the stick like Whis

I handle the beef like Majin Buu

Baby food opps are Chiaotzu

Ain't nothing to leave them

Covered in red like SS GOD GOKU

Got this blade I'll slice man up

Like future Trunks did Zamasu

Don't care that Kefles got boobies

Equal right we shoot at barbies too

Put shells in their back like Master Roshi

The Senzus didn't work from Yajirobe

**They need DRAGON BALLS to summon SHENRON
We stomped him to death did it like Broly
When i'm spinning their block I feel like Beerus
I left it destroyed like a Hakaishin
When I blast my Ki
My kill counts like Zeno SAMA better respect me**

**I don't care about man's power level

**This isn't even my final form
You don't want me in the hyperbolic chamber
In one day later, ten times stronger
Everyone gon feel my spirit bomb
Smoking that Cell and cooler pack
That green is healing me like Dende
What you know about ambidextrous
Lock both hands them let the Galick Gun spray**

**The opps are victims they've died more time than Krillin
His head we left 6 dots we made a pride trooper
Swallow his pride Toppo we knocked off his top
Jiren couldn't get no justice
For universe 11 we tag teamed him
Dyspo try run but we disposed him
He got hit with that golden Frieza Death Beam**
