Clout Chaser

Can't help it that's her nature

She know that I'm a slayer

But I can't be her savior

She a Clout Chaser

Cuz I can't be her savior

She thinking imma save her

No this for sure isn't love

You just want me for my drugs

Why is it never enough

Makes me wanna self destruct

When I was down on my luck

You looked at me with disgust

You with me now that I'm up

Should leave your ass in the dust

It's getting darker thesĐµ days

Why should I be afraid?

I know you got wicked ways

Silver tonguĐµ golden rays

You get endless party favors

Do all my blow so shameless

Make this rockstar go brainless

Courtney love Kurt Cobain shit

Can't help it that's her nature

She know that I'm a slayer

But I can't be her savior

She a Clout Chaser

Clout Chaser

She want me I don't chase her

Cuz I can't be her savior

She thinking imma save her
