

Frawst - Deep End

Awkward situations

Avoid Conversation

They don't got to say shit

I can tell it's hatred

Those wounds hurt

I reciprocate the pain with

Pictures I've painted

So you can feel the anguish

Inside my brain it's

Foggy always raining

Mind's in the matrix

Body is sedated

I don't go outside I live in isolation

Want to make friends but I don't got the patience

I'm done stressing what I can't control

I got some issues I don't let em show

Dreams broken on the saddest roads

No turning back this the life I chose

I'm a beast I won't stop reaching

Live my dreams while I'm still breathing

Always creeping while you sleeping

I've been on the deep end

I've been on the deep end

**So you can feel the anguish
Inside my brain it's
Foggy always raining
Mind's in the matrix
Body is sedated
I don't go outside I live in isolation
Wanna make friends but I don't got the patience**

**I remember you said I'm a joke
You wonder why I don't pick up the phone
Stop calling just leave me alone
No turning back this the life I chose
I'm a beast I won't stop reaching
Live my dreams while I'm still breathing
Always creeping while you sleeping
I've been on the deep end
I've been on the deep end**
