

Frawst - My Own Way

**I got your message i wanna write back but don't know what to say
No matter how far away i can still hear you calling my name
I know you want me to stay but i gotta find my own way
Don't worry i'll be ok i just gotta get out my own way get out my own way**

**Already suffer enough cuz i beat myself up everyday
Slowly i'm rotting away from the poison i put in my brain
I try to mask my emotions with alcohol numbing the pain
I don't feel much anymore i got ice running through my veins**

**I got your message i wanna write back but don't know what to say
No matter how far away can still hear you calling my name
I know you want me to stay but i gotta find my own way
Don't worry i'll be ok i just gotta get out my own way get out my own way
Gotta escape from this town i can't stay here these people are strangĐµ
Fake friends throw dirt on my name bĐµhind my back then smile in my face
If i put hands on 'em they'll run and tell that's why i must behave
Trapped in this party scene yeah
I just hope i don't dig my own grave**

**I got your message ii wanna write back but don't know what to say
No matter how far away can still hear you calling my name
I know you want me to stay but i gotta find my own way
Don't worry i'll be ok i just gotta get out my own way**

**I know you want me to stay but i gotta find my own way
No baby don't be afraid i don't think i can be saved**
