

Over October - Intertwine

**If I could tell you all the things you are to me
I'd try to fit them all inside this song**

**The words I say won't give our love no justice
â€˜Cause what we have's a blessing from above**

**Though the winds may change
And the lights may fade
Our love will see us through**

**Take this heart to be yours, only yours
And every part of you will be mine, only mine
Even the ghosts
And all the fears
Even the most uncertain years I'll hold you close
It starts tonight
The night when our lives intertwine**

**If I could tell you all the times I prayed to Him
You would find them sev'ral hours long
But I heard the heart speaks louder than a million voices raised
Now the answer to my loudest pray'r is standing here today**

**Though the winds may change
And the lights may fade
Our love will see us through**

**Take this heart to be yours, only yours
And every part of you will be mine, only mine**

Even the ghosts

**And all the fears
Even the most uncertain years I'll hold you close
It starts tonight
The night when our lives intertwine**

**Take this heart to be yours, only yours
And every part of you will be mine, only mine
Even the ghosts
And all the fears
Even the most uncertain years I'll hold you close
It starts tonight
The night when our lives intertwine**
