

## **Crabb Family - Christmas in the Country**

**The weatherman says we can count on snow tonight  
The Hills will glisten in a blanket of white  
Down in this valley, in our little country home  
The family has all gathered in and there's a whole lot going on**

**It's Christmas in the country and everybody's home  
Can you believe another year has already come and gone  
Everybody's jolly, recalling days gone by  
Happy birthday, Jesus, we're thankful  
It's a Merry Christmas in the country tonight  
The kids will hang the stockings by the fire place again  
Anticipating the surprises in them  
Gifts received and given will fill our hearts with cheer  
Wish this Christmas spirit could last throughout the year**
