

## **Foxfredito - Lust**

**She wants that love that she never got  
Room satisfaction is on her mind  
She says she loves it when she down  
Private show for me she wants**

**It's just between us  
Moving like we wild  
Marks on her neck  
We never gonna stop  
She wants that late-night call  
To pounce like she always wants  
Baby, you got it all  
She always satisfied  
It's always about her  
From morning to the night  
She has that  
Uh—  
That gets me right  
She got me on the ride  
Her eyes filled with pride  
It's never-ending  
Lust—  
On her mind  
She's got me right  
Feeling so high  
Yeah  
She wants that love that she never got  
Room satisfaction is on her mind  
She says she loves it when she down  
Private show for me she wants**

**Just keep it in the closet  
Mich said it better  
The touch to the kiss  
Pick her up cause she knows  
We got  
The tools to her soul  
She loves  
Baby on a roll  
Get that  
She loves attention  
She is a  
An addiction  
She says  
Hit that  
Make her sing to the mic  
Now baby take it slow  
The night to make you smile  
Shaking to the rhythm you like  
The room left untouched  
For play, she feel it to her core  
Baby got it right  
Loves it when she tired  
All day nigga hit that  
She whispers  
She wants that love that she never got  
Room satisfaction is on her mind  
She says she loves it when she down  
Private show for me she wants**

**She wants that love that she never got
