

John Carcer - SELF-HARM COMPILATION

**Don't panic or scream
Don't panic or scream
With slits on your wrists
Blood full in the tub
That's shit I'll see on suicide compilation
Put you out liveleak it's dead
I watch people die instead
Like you I get my nut off
To open the wound it's seeping into the floor
Stained memories
I can never forget you
I'll slam your head in the wall
So I can see you burned on the wall
Welcome to the show
It's my game
It's my bloody game
Your nothing but a bypass hitter
It's a sleeper
Everyone missing out
Waiting for the winners
Your the same as an ad
I'll skip the bitch
Cry more and I'll put you higher up
Come here sexy
Don't panic or scream
Don't panic or scream**
