

## **Pureojuice - Rick and Morty Drill**

**I'm in the laboratory  
Whipping up chemicals  
Rick and Morty (science)  
I'm more like Rick  
Got bare weapons in my inventory**

**Fuck the federation  
I let the thing pop  
Lean out the spaceship  
If the gang gang drops  
I got replacements  
Got back up clones  
That's in my basement**

They can't replace me cause  
I make them shmikles  
How many trips did I take**

Round the universe and back is fucking mental  
How many times did I slide around there  
With a portal gun try to rub man's k2  
Skelton Aps and Cartects  
Flooded my wrist below sea level

Outta this world  
Terrestrial see this bezel  
Gems shinning like stars  
C137 that's my dimension  
Come around here you who's in charge (me)  
The cats are overdosing drugs  
This rock on a needed to Mars  
My life am living still playing with chemicals  
In a brought down garage

I'm in the laboratory  
Whipping up chemicals Rick and Morty  
But I'm more like grandpa Rick  
Got sticks and beams in my inventory  
Fuck the federation  
I let the thing pop  
Lean out the spaceship  
If the gang gang drops I got replacements  
Got back up clones that's in my basement  
I'm in the laboratory
