

Lil Purple - Purple

{Verse 1}

**It's evident; I'm the illest since the reverend
Servering beats cause hip-hop is my medicine
I've fallen victim of the nasty beatitis
I need to keep my hands clean, I need to be righteous
Some call me Purplias, cause I'm the flyest
Why's this, probably cause I am the wisest
Step into the room and you see me do the Heisman
High stepping to endzone, Andre Rison
I'm always hitting tracks, Monday through Friday
Always ripping beats while driving on the high way
Well I'd say, on the weekend too
People think they're good but they're on the weak end dude
Trying to be like Wiz, be like Mac miller
Some people only care about the bills, CJ Spiller
Me I'm more than that, I want my name to be heard
Money's great but I wanna perform like Larry Bird**

{Hook}

**I say what's my name, lil purple, yeah, that's my name
I say what's my name, lil purple, yeah, that's my name
I say what's my name, lil purple, yeah, that's my name
I say what's my name, lil purple, yeah, yeah**

{Verse 2}

**Have you ever seen fear in the face of a warrior
Blood sweat and tears all combine to make euphoria
No secrets are hidden, not even from Victoria
So we all storm in like this is Hurricane Gloria
Clash of the Titans, we may be frightened
Adrenaline is running, so we go in fighting
Holding my triton, I'm feeling like Poseidon**

I'm nearly to running this shit, call me Joe Biden
I love to spit high but I write better sober
My rap game's two faced, call it bipolar
This life is a wild one and I'm trying to control her
When she gets outta hand I'mma need a controller
So high of the nature I'm feeling kinda solar
One day I want a team with a personal blunt roller
I'm pulling all the cards playing poker with all jokers
And when we're talking greens you know that I'm a smoker
Running on fumes like an old rusty motor
Clipping fresh grass like a john deer mower
The purple that I'm on got me slower than a turtle
Grand daddy purp herbal, I'm spinning circles
Like Urkle, green and purple suspenders
Remember, the eleventh day in September
2001 every member felt the tremor
The center rendered defenders of all genders
So we entered the adventure, and felt the ember
Of surrender like the offender from the 7th of December
1941, the first nuke used and the war we won

{Hook}

I say what's my name, lil purple, yeah, that's my name
I say what's my name, lil purple, yeah, that's my name
I say what's my name, lil purple, yeah, that's my name
I say what's my name, lil purple, yeah, yeah
