

## Silas Simmons - Don't Leave

Intro {Silas Simmons} Yeah, Don't Leave, The Dangers of Apostasy, let's get right into it

Verse 1 {Silas Simmons} Lord please help me to speak on this topic properly, and honestly I know that God's in me he walks with me, call it Comradery. {yup} Who can be against us if God's for me, {who can?} but there's some folks who left this belief man call it apostasy. "Apostasy, what's that?" Glad you asked because it's dangerous, but it's ok man strength in ourselves bro we was made for this. "Really?!" Nope, actually it turns out we were made in sin, in sin my mother conceived me man that's why I'm seeking grace from him

Chorus {Silas Simmons} Hey don't leave bro these dangers they are relevant, our hearts is delicate, we built up by Old and New Testament. Holy robes of glory we see God and he is dressed in it. Only if it's of his will, will he show up and bless in it. Walking the narrow path we know God is directing it, evils of this earth at a record high they are prevalent. But it's ok because the ends already destined, by his death and resurrection eternally we in debt to him. x2

Verse 2 {Silas Simmons} Now imma go ahead and continue, {yup} speak on folks that left from God's residence, and they switched up the venue. {apostasy} Without Christ, nothing but death is on the menu, {nothing} do you really think you gon survive bro in that day when you're {nope} forsake the one that made you, the Son that gave you breath in your lungs, but spiritually speaking you the same dude? {not a chance} 1 John 2 Paul warns us of these evildoers, {yeah} all they spit is lies on Christ you can call em' evil spewers. {yup} Leaving the gospel hostile for doctrines that's seeming newer. {that's right} Holdup, lemme leave this message bro to each and every single viewer. Leaving the faith, man that's the worst thing you could do, {the worst thing} who will you choose, Jesus or Barabbas? Man we know what you'll do

**o. {we know} We all choose the world over Jesus naturally, {yup} it's such a travesty, but listen up bro cuz actually, {listen} if you trust in him he 'll save you avidly, {he'll change you} and we've been changed and we celebrate because of his tragedy. {we have been saved}**

**We've been changed and we celebrate because of his tragedy. x4**

**Stay up in his word, cause that's all you got, Christ won the battle he tho roughly fought x2**

**Trust in your savior alone x4**

**Yeah, Don't leave x3**

**Trust in him alone x3**

**Check it, trust in him alone**

**Chorus x2 {Silas Simmons} Hey don't leave bro these dangers they are relevant, our hearts is delicate, we built up by Old and New Testament. Holy robes of glory we see God and he is dressed in it. Only if it's of his will, will he show up and bless in it. Walking the narrow path we know God is directing it, evils of this earth at a record high they are prevalent. But it's ok because the ends already destined, by his death and resurrection eternally we in debt to him**

**Outro {Silas Simmons} Don't leave, the dangers of apostasy, Christocentric, and we out**
