

Omega McBride - Moving Forward

**I've had money
I've been poor
I've seen the top
I've seen the floor**

**I've been set back
I've been ignored
But that's my past
I'm moving forward**

**Let my actions {forward}
Tell the score {moving forward}
And if you ask {moving forward}
I'll give you more {moving forward}
What happened yesterday {moving forward}
Is gone {moving forward}
That's my past
I'm moving forward**

**Life (life)
That sh** can be a trip, can't it
Like (like)
These pictures that my lyrics' painting
Got rid of my umbrella when it started raining
The only to show ya growth
Is by being naked
Some people think i'm spitting a different
Language
I'm just keeping it real, releasing anguish
I don't need ya energy to be motivated
The inner me has mentally already made it**

**So, as far as the industry, i can't be tainted
Even with liquor & weed, i can't be faded
Yah, spade me the penalties of being famous
I'ma go down in history as 1 of the greatest**

**In the position i'm fixing to be
I can't explain it
So, i'll just keep it a mystery
Like it's something sacred
Some people dream but they don't even chase
It
Let's get back to the basics**

**I've had money
I've been poor
I've seen the top
I've seen the floor**

**I've been set back
I've been ignored
But that's my past
I'm moving forward
Let my actions {forward}
Tell the score {moving forward}**

**And if you ask {moving forward}
I'll give you more {moving forward}
What happened yesterday {moving forward}
Is gone {moving forward}
That's my past
I'm moving forward**

Right (right)

Sometimes, seems wrong

Fight (fight)

Until you've got a hold on it

Had a wall step to me & i stole on it

Did a (muhammad) ali, (joe) frazier

Larry holmes on it

No money for clothes

Crib foreclosed

Sh outta luck**

Need a leaf with four cloves

Tell my girl that i'm trying

New music

I am not lying

Look back on my past, like gas

Had several different things that have

Pushed my a**

Forward

Back from dead

Busting outta the grave

No more worries ahead

Don't matter what i did or what they did to me

Every since i was a kid, i would win dummy

That's i focus on impact

In fact, keep business & personal in tact

Get that?

This track

2 verses, a new chorus

New song as i mo - mo - mo - mo - move

Forward

What happened in my past

Happened in my past

If that's where you wanna be at

I ain't looking back

You tryna finish last

You can finish last

Lay down, go head & relax

I ain't doing that

What happened in my past

Happened in my past

If that's where you wanna be at

I ain't looking back

You tryna finish last

You can finish last

Lay down, go head & relax

I've had money

I've been poor

I've seen the top

I've seen the floor

I've been set back

I've been ignored

But that's my past

I'm moving forward

Let my actions {forward}

Tell the score {moving forward}

And if you ask {moving forward}

I'll give you more {moving forward}

What happened yesterday {moving forward}

Is gone {moving forward}

That's my past

I'm moving forward

I've had money

I've been poor

I've seen the top

I've seen the floor

I've been set back

I've been ignored

But that's my past

I'm moving forward

Forward

Moving forward

Moving forward

Moving forward

Moving forward

Moving forward

That's my past

I'm moving forward
