

Gentleman - Evolution

{Chorus}

Evolution

All the do's and dont's will help you find your way

Resolution

And you got to stand tall open minded every day

{verse I}

Mysteries exist for us to find dem

Nothing never happens until it reach the time then

Metaphores and miracles dem just blind dem

And if you live in fear and doubt

You will always stay behind then

The master got his eyes on what you doing

So humble yourself or your blessings will be ruin

Nuh see no rain a fall heavens gate a call

And without no love boss nuh go listen

{Chorus}

{verse II}

Houses build by wisdom

Small large or medium

But it's overstanding that we turn it ina kingdom

So many parts to know

What will we a go

There is no sacrifice when what you seek is freedom

Nothing new about the things we are doing

And there is nothin new about the words we are saying

Confusion in our feeling in search of the meaning

Longing for the spiritual healing

{Chorus}

{verse III}

Prophet priests and kings

Same song dem asing

Seek your soul mankind and no bother with the bling

A cause certain frequencies connect humanity

And speak of the vinity love and shear infinity

Got to learn the rules so i can break dem properly

If i man a loose i man nuh loose none a me clarity

Bun dem authority senseless ideology

Help me sing da song deh with me

{Chorus}
