

## **The Burns Sisters - Far From My Home**

**Living in the city on these dirty streets  
Sometimes it's so hard to believe  
The price I would pay when I walked away  
For a life I thought was free  
Well, I chased my dreams across the ocean blue  
Across mountains, rivers and seas  
When I close my eyes  
I can't stop thinking about she way it used to be**

**I'm far from my home  
Far from the friends I've known  
But every song I sing is leading me back  
Back to the time  
Leading me back to my home**

**Down on Leroy Street, where we used to live  
In a house so big and so strong  
We'd spend our days in endless play  
Sheltered from the storm  
We were so many children and so many friends  
There was always someone knocking at the door  
And, if you came with troubles, my mother would say  
There's always room for more**

**I'm far from my home  
Far from the friends I've known  
But I have you here, deep in my memory  
Inside my heart  
You are a part of me  
And when the world outside comes crashing down  
When I can't keep from crying**

**I know I'll find my way in dreams of yesterday  
I still can call you my own**

**I'm far from my home  
Far from the friends I've known  
But every song I sing is leading me back  
Back to the time, leading me back  
I'm far from my home  
When the cold wind chills to the bone  
I have you here, deep in my memory  
Inside my heart  
You are a part of me**
