

Layzi - Nothing Ever Feels Right

**I've been falling further out of touch
And it's probably 'cause I never sleep enough
I've been getting lost inside my head all night
And I know that this feeling isn't right**

Nothing ever feels right

**I can't help but need to feel rushed
And it's all adding up, why isn't it enough?
Always something weighing on my mind (mind)
Nothing gets me high anymore**

**Why do I just waste my time?
Nothing ever feels right (nothing ever feels)
It will stop me in my mind
Nothing ever feels right (nothing ever feels, right)**
