

Bing Crosby - I'm Yours

{Verse 1}

**Ask the sky above and ask the earth below
Why I'm so in love and why I love you so
Couldn't tell you, though I tried dear
Just why, dear, I'm yours**

{Verse 2}

**When you went away you left a glowing spark
Trying to be gay is just whistling in the dark
I am only what you make me
Come take me, I'm yours**

{Bridge}

**How happy I would be to beg and borrow
Or sorrow with you
Even though I knew tomorrow
You'd say we were through**

{Verse 3}

**If we drift apart then I'll be lost alone
Though you used my heart for just a stepping stone
How can I help dreaming of you?
I love you, I'm yours**

{Bridge}

**How happy I would be to beg and borrow
Or sorrow with you
Even though I knew tomorrow
You'd say we were through**

{Verse 4}

If we drift apart then I'll be lost alone

Though you used my heart for just a stepping stone

How can I help dreaming of you?

I love you, I'm yours
