

YUNGBLUD - Miss Those Days

{Verse 1}

**Night after night goes by
There's not a trace of your scent on mine
I need a lullaby
To help me sleep tonight
I need your lips on mine
Reminds me good and bad times
Yeah you are still inside of my mind
And your picture helps me sleep at night**

{Chorus}

**Hey I've been waiting
Say, you miss those days when we would mess around
Hey I've been waiting
Say, you miss those days when we would mess around**

{Verse 2}

**Don't wanna stand in line
They make the choices its hard torn mine
I must have missed the signs
To turn my world straight upside down
I wonder how you've been (I wonder, I wonder)
I heard that things aren't quite as they seem
I need to know that you're alright
And that will help me sleep tonight**

{Chorus}

**Hey I've been waiting
Say, you miss those days when we would mess around
Hey I've been waiting
Say, you miss those days when we would mess around**

{Bridge}

**Cuz I will miss you always baby
My life's not been the same lately
I don't feel as sane as I could be
Cuz I will miss you always baby
My life's not been the same lately
I don't feel as sane as I could be**

{Chorus}

**Hey I've been waiting
I miss those days when we would mess around (Yeah)
Hey I've been waiting
Say, you miss those days when we would mess around
Hey I've been waiting
I miss those days when we would mess around**

{Outro}

We would mess around
