

Omega McBride - Here We Go Pt. 1

**Since i really do not have a chorus to this song
I'ma just freestyle and hope it's not too long
Even though i grew up poor and so misfortunate, i'm grown
I will never, ever give up even though the road is long**

**Here we go
Here we go
Here we go
Here we go
Here we go
Here we go
Here we go
Here we go**

**They say, who is he?
Who is that?
His intensity is unmatched
His flow is fire as if his tongue as just struck a match**

**Hitting em from the back of the line
He can rap. he can rhyme
Standing on the bottom but he's headed to the balcony, now**

**She said i was blowing her mind with my intellect
Said, she had reached multiple peaks, like having mental sex
She said, "where you been at?"
I been away in the lab
Superstitious, i'm so ambitious i ain't taking bath**

**Paper, pen in my hand
Retracing my path**

Creating my craft

So, if you're sleeping

I'll be somewhere wide awake with a pad

This true story, i feel as if i've been dating my dad

Always back to square one but i no longer hate him not mad

I'ma live giving every bit of my positive

Some of what you want and all that you need like momma did

I've got a little amount but there's something screaming for more

The passion is coming outta my mouth from struggling, poor

Since i really do not have a chorus to this song

I'ma just freestyle and hope it's not too long

Even though i grew up poor and so misfortunate, i'm grown

I will never, ever give up even thought the road is long

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

See

I've been told all my life i have a witty way with words

So, i put em to music and let my city say it's hers

Whether radio play me or not, i do this for you

We've got a video ready and they don't even have a clue

But

You know, my cup's half full

Push, thrust and pull

The door is open

Me and my team, Jordan and the bulls

Or Kobe and Lakers

Whatever you wanna name us

I am what you would consider salt to a shaker

Last of a dying breed, I'm the baker of flavor

White Castle type ideas, got a case for the craver

This here music is what I am and grinding is what I like

If you cannot comprehend, then why don't you take a hike?

I don't waste time attention because of my values

Like a student down in detention, I'm learning how to

Focus better and the cheddar will come

I've learned a lot on my own

Like a dead veteran's son

Since I really do not have a chorus to this song

I'ma just freestyle and hope it's not too long

Even though I grew up poor and so misfortunate, I'm grown

I will never, ever give up even though the road is long

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go (here we go)

Here we go (here we go)

Here we go (here we go)

My selections are a & b

While the rest of yall d's like mickey (mcdonald's, mickey d's)

I'm ballin

Yall bowling and boxing them things on the wii

And i can tell by the way you're looking at me, i'm in yo mind

Meaning, if you did what i do, i'd prolly be in yo rhymes

And when i say never, the definition is "not at all"

Working clever, no pressure, the intention is not to fall

Bottom of the totem pole

Potential on 10

Got em on his scrotum

So, potential gon' win

When good's getting better

And my better's becoming best

My blood in my veins, say i bet i become the best

So, as i walk through the valley of the shadow of death

I will fear no evil or night like fighting for civil rights

He's a beast, ill on the mic meets thriller and mike

#1 and me gon be seen as if we're miller and light

Cold, chillin on ice, laid back feeling alright

'cause i'm the son of the one whom was sent here & healing their sight

Since i really do not have a chorus to this song

I'ma just freestyle and hope it's not too long

Even though i grew up poor and so misfortunate, i'm grown

I will never, ever give up even thought the road is long

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go

Here we go
