

Mr Tout Le Monde - Wonderful World

**The breeze that blows across our skin
Carries scents of flowers and kin
The rustle of leaves, the chirp of birds
Are sounds that we cannot put into words
What a wonderful world we live together
What a wonderful world we live all together
From bustling city to quiet town
There's wonder to be found all around
In the laughter of a friend
We find joy that never end
What a wonderful world we live together
What a wonderful world we live all together
What a wonderful world we live together
What a wonderful world we all live together**
