

## **Mr Tout Le Monde - All Alone**

**The fear of being all by myself  
With no one here to share my room  
No one to talk, no one to hold  
No one to comfort me when I'm cold**

**Alone, in the silence of the night  
I can't help but feel a sense of fright  
The world is quiet, the stars are bright  
But I can't shake the fear in my sight**

**I'm all alone  
I'm all alone  
I'm all alone  
I'm all alone**

**The fear of being all by myself  
With no one here to share my room  
No one to talk, no one to hold  
No one to comfort me when I'm cold**

**Alone, in the silence of the night  
I can't help but feel a sense of fright  
The world is quiet, the stars are bright  
But I can't shake the fear in my sight**

**I'm all alone  
I'm all alone  
I'm all alone  
I'm all alone**
