

Bing Crosby - Feels Good, Feels Right

It's been awhile

Since I had a night out

Feels good

Yes it's been awhile since I've been rounding about

Feels good

It's been awhile since I shook off the sand

Open my pipes and wail with the band

It's great to be again a part of the scene

I've got some tools on which I'm fixing to lean

Feels good, feels right

My friends you're sending good vibe bracing tonight

Seems like somebody new exactly who to invite

Feels nice, feels warm, feels soft, feels good, feels right

Feels warm and it feels fine

Good vibes, good friends, good talk, good food, and good wine

Seems like your great expectation is about to make mine

Ohhh feels warm, feels soft, feels nice, feels good, feels fine

Feels grand

Feels so grand

Looks like a night when we should sit in with the band

I'd like to kick some tools around and see where they land

Feels nice, feels warm, feels soft, feels good, feels right

Feels good, feels right

My friends you're sending good vibe bracing tonight

Seems like somebody new exactly who to invite

Feels nice, feels warm, feels soft, feels good, feels right
