

## **BIG CoFe - Learning**

**{Verse 1}**

**Lotta asses are gonna clap for me this time  
'Cause of you I was never a Hugh fan  
Coming back for everything  
I know 'em other guys thirsting over magazines  
They might need bigger screens  
Blow one for your fantasies  
I know 'em other guys too lumping other things  
They really need better things  
Meanwhile I'm out here still waiting for better things  
You used to be my better thing  
Couldn't see you were down for me  
All this while, careful playing parts  
Realized how much you wanted to show mĐµ  
It's hard to believe that you'rĐµ over me, Ay**

**{Verse 2}**

**Crazy, astound when I finally told you  
Pass love I'd really die for you  
Started probing me when this my only space  
God bless Bain, she really put me on a fast pace  
Loved the fact that I could tell you anything baby  
Hear me out when nobody did, you saved me  
Since then you the only one who can break me  
Found a new life, you broke me  
It took forever but you showed me  
I'm learning to love myself  
I'm learning to give more of myself  
I'm learning to understand people more  
I'm learning not to control  
I'm still learning**

**I'm still learning**
