

## **Alli Cazaam - Alakazaam**

**This song goes out to everyone that believes in love  
And if you ever falter in life, just say my name and  
Your hopes and dreams will come true!**

**I'm in ecstasy when you're close to me  
My thoughts hide deep in me like social atrophy  
Well I'm diggin' what you're saying  
I'm groovin' when you're movin'  
Swayin' to the left and slidin' to the right  
I'm holding my head 'cause I feel a little dizzy now  
I feel kinda silly but you know what I'm talkin' 'bout  
I splash a little water on my face and keep dancing  
While everyone else around is slowly disappearing  
The night has turned to day and all I have to say is  
I gotta keep dancin'. I gotta keep dancin'**

**Just look around cause I'm everywhere. I'm everywhere in your heart  
Love will live on. No time for tears. Together we will belong**

**Feelin' kinda silly but you know what I'm talkin' 'bout  
Yes, I gotta keep dancin'. I gotta keep dancin'  
Feelin' kinda silly but you know what I'm talkin' 'bout  
Yes, I gotta keep dancin'. I gotta keep dancin'**
