

## **Derek Pope - Awake**

**{chorus}**

**I would die for it**

**Think i won't, gave up my life for it**

**Said she'd lie for it, all nine lives for it, blow my mind for it**

**High for it, way too high for it, out the sky for it**

**Now i sleep when i'm awake**

**If i'm numb now, why do i still feel all this pain?**

**If you run now, you might have a chance to live again**

**{verse 1}**

**Ghostface, won't evade**

**Solo this no motorcade**

**Just came with the photo takes**

**Finger fuck my novocaine**

**I don't ever feel a way, i just feel away**

**Banana clip up to my brain, yea just peel away**

**{bridge}**

**Don't say this too much**

**I've moved mountains**

**God's hand, devil's luck**

**Save my soul**

**High notes**

**Papercuts**

**Eyes low**

**Beam me up**

**Binds won't**

**Be enough**

**All i know**

**{chorus}**

**I would die for it**

Think i won't, gave up my life for it  
Said she'd lie for it, all nine lives for it, blow my mind for it  
High for it, way too high for it, out the sky for it  
Now i sleep when i'm awake  
If i'm numb now, why do i still feel all this pain?  
If you run now, you might have a chance to live again

{verse 2}

Move

With the faces that look like they're on the moon  
I don't blend in with the humans in the room  
Running for their lives

{bridge}

Don't say this too much  
I've moved mountains  
God's hand, devil's luck  
Save my soul  
High notes  
Papercuts  
Eyes low  
Beam me up  
Binds won't  
Be enough  
All i know

{chorus}

I would die for it  
Think i won't, gave up my life for it  
Said she'd lie for it, all nine lives for it, blow my mind for it  
High for it, way too high for it, out the sky for it  
Now i sleep when i'm awake  
If i'm numb now, why do i still feel all this pain?  
If you run now, you might have a chance to live again
