

Sivan Langer - Let's Rock It

Screw it let's do it

Fuck it let's Rock it

I got Dylan for my feelin'

I got the system, bucket

I've been double deelin'

It was the strangest kind of feelin' (yea)

Let's get out of the comfort zone

To the essence of our being

Screw it let's do it

Fuck it let's Rock it

Everyone selling something

What is it that you're selling?

Is it original?

Is it entertaining?

And after all this mess is gone

There better be a somethin'

Better Hang on to your higher grounds

And get a grip cos we're riding

Screw it let's do it

Fuck it let's Rock it
