{pre-chorus}

I made the limitless man reach limits
Toji you know i'm a savage
Plotting on him since he was 6
Caught him lacking and took advantage
Stab it push it in throats and drag it
If my right hands tired switch to the left and do more damage
And let insects eat him up tragic

{chorus}

Gojo's not untouchable i put hands on him and humbled the fool
Even with six eyes couldn't sense me i got no cursed energy i'm invisible
Heavenly pact i'm too physical too fast my moves unpredictable
How'd he survive it's a miracle
I left him 1 hp critical

{verse 1}

Is this the pinnacle of sorcery
Ha, they lost to a monkey like me
Even with all their blessings, oh shit, where's megumi
I'm a bounty hunter pay me a fee

I don't usually fight for free but i take this beef here personally
My pride might just be the death of me
Inverted spear woulda sent him to heaven
If i put that thru his melon
At least i gave him ptsd now he uses infinity 24/7
Mind blew the plasma vessel
She should've learnt cursed reversal
Got an arsenal of them weapons i take everywhere without any detection

{chorus}

Gojo's not untouchable i put hands on him and humbled the fool
Even with six eyes couldn't sense me i got no cursed energy i'm invisible
Heavenly pact i'm too physical too fast my moves unpredictable
How'd he survive it's a miracle
I left him 1 hp critical

{verse 2}

Fuck the zenin clan we share the same blood but we are not fam
Unapologetic i am who i am
When the wife died you won't understand that pain turned me dark
Got me back on my buulshit gambling do anything for the bag
Sorcerer killer if you're on my radar you'll end missing like a deadbeat dad
I feel cursed with no cursed energy i give off black air force energy
In a world full of magical tools i still keep a blicky in my inventory
Geto try get back for gojo the riff raff didn't have the facilities
You ain't ever beat someone up so bad that they lose their sense of identity
