

# MaGyverMIRE - GOD \$eNt

{Hook}

She is the Jake of all trades  
Nigga I'm a dime in a Rim  
Niggas still fight for a hoe  
Watch out they slid back around  
I never looked back  
I'm Triple H in his prime  
You can't steal my time  
You better make a deal with God

-

Now she tryna find me  
When are you going to â€œbe?â€•  
Bitch on her lap, I freeze  
I fuck her on my street  
You ain't my VIP  
Please I need my cheese  
In the driver's seat, I lead

{Verse 1}

I ran away from my twin-flame  
I'm running away from myself  
God put me on my purpose  
I just fuck around with myself  
Dreams don't lie, man should I cry?  
I'm selfish, man I got pride  
I'm Grayson Waller, I gotta hit my prime  
Elevation, God gave me life  
My spirit's fire son  
The world is dead son  
Shawty shaking ass  
Niggas shoot and die

**I could show your life  
God is on my side  
They jeopardize themselves  
I had to redeem myself  
I got a lot on my mind  
I'm running to my bag  
My case closed homie  
{Hook}  
{Verse2}  
Now she looks at me  
I'm hot like Daddy V  
Bitch come be my ease  
Now I walk on diamonds please  
She's my favourite ting  
You know what I mean  
You know I love things  
You know I love ayyyyy....**
