

Derek Pope - Birthday

{Chorus}

**How do they come find me
Only on my worst days
It feels like I'm dying
It feels like my birthday
I'm outside your window
I need more than first aid
It feels like I'm dying
It feels like my birthday**

{Verse}

**Are you on the way
Better never than late
When it comes to the party
Stuff my face in the cake
Put the candles away
Don't surround me with bodies
Save the wishes you gave
Stuck inside
Of the moment
Don't remind me
All the time that's slipping away
What's one more year
What's one more year**

{Outro}

**Here
With me
In our head again
Happy birthday to you
And me**

To you and me
