

Staggy - I think it might rain tonight

{staggy}

**Now we coming for heads i think it might rain tonight
Stay up while you ahead, cause now we don't play too nice
Got that boy on the ledge, he still think we won't take his life
Heard you shook up we still here coolin'
Metal rubbin' on your bitch while we spooning
Out in boston shoutout dpf
Glock got a large attachment, pdf
Glock get to loving on you pda
I'm on the way 5 out eta
Your bitch approved to eat dick, fda
And she can't even finish my name s-t-a-
Pulled off, in that sti
Pulling up alone diy
Fuck all night she got uti
You still can't pull up with just you and i
You still stuck giving me that dumb cold shoulder
Thought i wouldn't get it i guess hell froze over
You are bĐµaring witness of this no jehovah

**Boy we put on a show on the regular
Feds tapped so don't hit on my cellular
Spun back, whirlpool then we wet them up
Still talking don't think we should let him up
Can't let them up in my crib
Now he look like the skeleton on my ribs**

Got brain matter all on my ricks

Bitch you the reason i look like this

{emags}

This my paint you come and get oneil'd

No duds in the clip i shoot for real

Acting too sketch one look and its no deal

You look far from home, there ain't no weial

Got an impreza 140 in 4 doors

Death in the sky this shit more than a mortar

Look at your friends you can't take all the horror

Taking your loot i get called an explorer

Looking around i can't see your clique

Think i'll see better taking the gun off my hip

You can't push against my whip

You can never go through what i did

Keep a 20 on me, know it's gonna hit shit

Bullet spread in the way, not gonna miss it

Think that you're better so please think realistic

Calling my bluff go check the statistics

It's gonna rain tonight

It's gonna-

{staggy}

When i met with the devil we slow-danced

White in my nose no lindsay lohan

Boy to get up at me you need more bands

Back of my show we mix that potion

Go to sleep boy don't make no commotion

(caught a casualty in slow motion)
