Intro

**Don't put off Tomorrow what
You can do today
And all the lovely things
Get going to do**

**Sweet like an angel
Sweet like and angel
How yo must of been An angel
Sweet like an angel
Sweet like and angel**

Verse

**I have high hopes
Ik know I can get through
The worst yeah I know
I use to be an angel
But my heart turn cold
It's fuck the world
It's fuck the world
Imma be me
That's real me
Fuck what anyone says
Imma be me
That's the real me
I'm turn up live life
Imma savage
All this made me into me
How it be fr
How it be different now
How I'm different**

Trying to figure out

My life

To do better in my life

Ik fuck up socially

I'm Introvert

Always to myself

Keep to myself how it be

Just me myself and I

Close MIGOS

But the ego died

How it be me fr

How it be me fr

How I changed up

Knowing I'm sweet as an angel

Heart cold from the world

Too cold to sit out

Too thaw out

Not being yourself

That's tragic

Sweet like an angel

Sweet like and angel

How yo must of been An angel

Sweet like an angel

Sweet like and angel
