Verse

How I woke up saw the news

Makes me mad that world

Is full of idiots

Hurts my heart for suffering

In my heart

How the news be hate

Show me nothing but hate

Hate in my heart hate the truth

Hurts me to live in this world

Without peace without love
Need love need peace
Find peace find home
Where's home in your heart
Feel it in your heart
Im all for the equality
Im all for the equality
Have friends diversity
School em university
How it be
How it be
How it be
My head hurts from the lies
My head hurts thinking about the world
I been feeling like this no home for me
Feel like
I don't belong
I don't fit in
Bae cans cigarette
All around me
It's surrounds
Bae cans cigarettes
All around me it surrounds me

Live life to the edge
Live live to the edge
Live life to the edge

Bar cans cigarettes
All around me
It's surround me
Bear can cigarettes
All around me

It's surround me

Live life on the edge

Live life on the Edge

Live life on the edge
