

YNKEUMALICE - 3:am

Verse

Fill a shiver down my spine how it's 3am

Late night I'm paranoid about the

Things in my head how I feel like

Someone's watching me and I don't

Know who but I know they up to something

Bad

Anxiety in the day and night

How there's someone watching me

Out to get me what they plotting on me

Can't go outside I'm too paranoid

Trying to avoid death dodging death

I know I'm gonna bleed who ever out there

Wanna see my blood drain

One shot to the Brain

I don't wanna die just yet

So I'm gonna live my life with these thoughts

Of death how it be just me thinking

They watching on me plotting on me

If it goes down I'm gonna be here for the

Night where I stay

I don't want no beef

I don't want no war

I'm gonna keep my peace

I'm gonna keep to myself

Lay low but I don't know who

Want be dead I'm too paranoid

Paranoid by things that give me chills

Life's thrill I'm a junkie to the thrill

But it's unknown eyes and snakes

Watch your back they plotting to kill

**They plotting to drill your heart out
Kill you for random they don't have
Feelings just to kill Ik what Ik if I die
I want to be buried rich make money
Till I did imma die successful and
They mad about cause they know
About it how plotting on me
To paranoid
I can't sleep
I can't rest
To paranoid
Imma leave
Knowing people close me to
Me be safe at times at times
I ain't round they plotting
For blood no matter the blood
They want to set it drain out**
