

YNKEUMALICE - Ghost

Haunt me with text

How you

Don't text anymore

Ghost me from the past

How it haunts me

Hoe you Haunt

Me with text

How you

Don't text anymore

Ghost me from the past

How it haunts me

Verse:

You ghost me

I just wanna know what's

Up with you

Why you not answering my text

You been ghosting me

Way to much lk some

Cut me off out there life

Knowing it's ghosting you do

How I never saw you or heard from

You ever again

Knowing that you ghost

Should of spent the time on

Something else

How you ghost me like that

We never spĐµak it's quiet as

A graveyard between mĐµ and you

It's not the same without

Days go on and on

**Times flys by no words
Ghosting me from my past
Never heard of you anymore
How you just moved on
With your life
Left me in the dust
With cold memories
I get it know
You like to ghost
You should be
A ghost for Halloween
How you go disappearing on me
Haunt me with text
How you
Don't text anymore
Ghost me from the past
How it haunts me
Hoe you Haunt
Me with text
How you
Don't text anymore
Ghost me from the past
How it haunts me**
