

YNKEUMALICE - Vampire

Verse

**I wanna live life
Under the moonlight
Imma vampire at night
How I be up all night
Wide awake
Got nothing better do
But go all out for the night
Looking at the moon
I change from day and night
Vampire energy at night
Live my life in
The dark of night
More lively at night
I be awake in the night
How it be werewolf's and vampires
At night
How it's akin but enemies
Ik I'm dead inside stake to the heart
How my heart hurts how I
Feel for the night time
Night owl
Up all night
Living long
Living to I rule the underworld
Take you the underworld
Where hades rule**

Outro :

**No good blood sucra how it
Be different in the night time
More energy I be with the moon**

**I'm a vampire moon walker
Walk with the moon through
Darkness of night I like
Vibes are wholesome**
