

Staggy - Six in the morning

{Intro}

**Mordecai? I thought you were dead
I would be, if not for this gift box
I hope you like it**

{Pre-Chorus}

**Walk by all these cameras recording
Still don't feel too important
Sip this shit with lines that I'm snortin'
I got back in and I floored it
Turn back fast 'cause damn you so gorgeous
Fuck up my life give me more hits
Play this when you feel important
You talkin' to me like you want it**

{Chorus}

**Oh my god it's six in the morning, where in the fuck is this going?
Scratch my back bae keeping it flowin'
Knew from the start but ain't know it
Oh my god it's six in the morning, yeah
Oh my god it's six in the morning, yeah
Oh my god it's six in the morning, where in the fuck is this going
Oh my god it's six in the morning, yeah**

{Verse}

**Don't give a fuck 'bout the stresses, get into it
Look in my eyes let's get intimate
Stay up with me let's get drunk are you killing me?
Said from the start you was into me
Uh, now I'm into you
Driving home I can't keep {?}**

She a real one but fuck like an animal
Damn we woke up the kids need some Danimals
In my crib why your name on my Snapchat
You on my mind every day like a snapback
We at the crib every morning I tap that
I'm getting wasted wait what's in my {?}
Said we just this for now but that's taboo
Take off my shirt you like all my tattoos
Said you want smoke but fuck it I'll match you
Baby I'm not the one to come back to

{Verse 2}

But girl that's a lie
I'ma still probably be waiting I lie but I'm playing I don't got time
Mostly 'cause I don't want you to keep running around and just think that I
'm fine
I know you playing my songs while you up in the car she like hearing me sing
I got my hands on your body don't play with me shawty like all my rings
Doing some shit we can't mention, I made an exception, we fuck up his things
I ain't know we staying up but this thing in my cup got me feelin' like-

{Chorus}

Oh my god it's six in the morning, where in the fuck is this going?
Scratch my back bae keeping it flowin'
Knew from the start but ain't know it
Oh my god it's six in the morning, yeah
Oh my god it's six in the morning, yeah
Oh my god it's six in the morning, where in the fuck is this going
Oh my god it's six in the morning, yeah

{Outro}

Oh my god it's six in the morning, where in the fuck is this going?
Scratch my back bae keeping it flowin'
Knew from the start but ain't know it

Oh my god it's six in the morning, yeah

Oh my god it's six in the morning, yeah
