

Biking With Francis - AS SHE

{Intro}

As she fades away

I plead with god to let her

Stay, by my side

{Verse}

Talking about life 'till night fall

Packing a geeb in my car

FedEx, you don't speak much

Prying to find where your head at, not where your bed at

Don't wanna end my summer, delete your number

Rather have a headless beamer, guillotine her

I'll park it in the meadow, like fuck a meter

Water flooding both my feet up

I'll leave my sneakers

{Instrumental Outro}
