{Intro}

We about toâ€”

{Hook}

**Break out the bottles, we â€”bout to celebrate
All your pain and your sorrow, could leave â€”em at the gate
If you missing this function, then that's a big mistake
â€”Cause Ima have it and eat it, you know I'm talking cake
Said it's your birthday, grab the candles
Get your cake and make it shake, with no hands, uh
Yeah, it's your birthday, tell â€”em show out
We got no time for bad vibes, they getting thrown out (I just, I-I-)**

{Verse 1}

**Mailbox flooded, too much done got delivered
The venue locked, we ready for the vis'tors
Before we get it started, gon' snap a couple pictures
â€”Cause I know how I'll be when my system full of liquor
The three-six-five arrived
Now it's my time to glow and shine
They wanting in, but got no gifts
So when they call, I press decline
Don't get it twisted, intertwined
â€”Cause I don't play â€”bout me and mine
If you ain't twin, ain't getting in
Just me and besties for the night (That's right)
Dance like I'm outta mi mente
Phone blowing up, it feel too caliente
If you ain't sending a positive message
Then we are not kin, so don't act like we friendly
If we talking gifts, then I got me some plentiful**

Gon' smoke you like wax on a candle do
