{Pre-Chorus}

No need for introduction,Toji
You already know I'm a
I killed that old bitch even
After death, resurrected still causing damage
You can't control my body
I'm built different, your soul can't manage
So fast your eyes can't catch it
I've got a sorcerer killing habit

{Chorus}

In your domain, I'm not trapped
In here with you, you're trapping yourself
With a menace on the hunt for the strongest
No cursed energy, still standing on business
He thought I was weak but he fucked around
And found out and got turned into fish sticks
My sleeves didn't even roll down, it's bullying
Now, I can't call this a contest

{Verse 1}

The onĐµ who left it all behind jumped in thĐµ
Beef and changed the tide
Give me that playful cloud, it's mine
It's way too blunt so I customize I got that
Devilish smile, cause violence to me is bliss

Till this vessel, breaks my default mode
Is smoke, I'm fighting on instincts
Fuck a one on one, I don't mind if I'm assisted
I ain't making the same mistake with gojo
This time I'mma aim for the head
Stab it, push it in multiple times, till I confirm
He's dead with not one word said, the next
Strongest targeted

{Pre-Chorus}

No need for introduction, Toji
You already know I'm a (savage)
I killed that old bitch even
After death, resurrected still causing damage
