

FoxWithGuns - The Giant Enemy Spider

Rats, we're the rats!

And we gotta put an end to this birthday bash

Got a real big emergency, country-wide panic

'Cause a real big spider has come from the Atlantic

Clearly, he's an enemy, so we gotta call Jeremy

(Jeremy's dead!)

Rat 2, why haven't you alerted me!?

(Peeped the Horror, Jerma985

And now he's no longer alive

Mass of red, he dropped dead

72 hours, his stream remained livÐµ)

Our savior's dead, and we've lost hopÐµ

Chat, it's time to Peep the Horror

Hide behind your blanket

In terms of the casualties

Nobody can outrank it

In the distance, you hear Hog Rider

Hide from the enemy spider

Chat, it's time to Peep the Horror

Hide behind your blanket

In terms of the casualties

Nobody can outrank it

In the distance, you hear Hog Rider

Hide from the enemy spider

He was a mentally deranged psychopath

But still, he was destined to save the rats

All hope is lost and it seems like the end

From the spider, we've got no one to defend

**Then something rises over the horizon
He's got no iPhone, he's stuck on verizon
Jerma's rage has hit the border
Enemy spider, time to Peep the Horror**

**Chat, it's time to Peep the Horror
Hide behind your blanket
In terms of the casualties
Nobody can outrank it
In the distance, you hear Hog Rider
Hide from the enemy spider
