

MaGyverMIRE - I WOKE UP LIKE TAKASHI

{Hook}

That's said

Niggas are timid and wild

God is watching, he just smiled

(Takashi)

Watch out when homies are bitten

One day, I'm living in Schmitten

(Takashi)

I'm not waiting until I die

Living my life with my spouse

(Takashi)

I cash out, you're dreaming that life

How are you living your life?

(Takashi)

{Verse 1}

Ahh

I'm Martin Lawrence rap

I'm all in edition, I can't wait for a snap

No competition, I just rap and snap

But niggas attack, they live in past

It's all in their head, they blame themselves

I aim for the head, I go for the bread

God is my bread, God is my light

My soul controlling me, I live with the light

Remember that

I was stuck with you, girl

I wish I had a vision with you

I can't live in thĐµ past

I'm Millennium, boo

At least you hot

Can you give mĐµ the juice?
I can't stop my nigga
I'm trapping over here my nigga
Niggas are feminine
They're pussy af, okay like
They put on a show, man, it's a front
Snupe is ahead, I'm pacing my nigga
I work on my shit
I hustle my nigga
Bread is going higher my nigga
Over the moon, I'm like Armstrong
She is loud like Teddy Long
My girlfriend is a thug
She saves souls for a buck
{Hook}

{Verse 2}

Aye
I always there
She wasn't concentrating
Baby went away
I was hurting, baby x4
