

Artemas - just want u to feel something

{Chorus}

I just want you to feel something

No, I don't want you to heal

I don't think I'll ever heal

Ooh, why do you feel nothing?

'Cause for me, it was real

At least, for me, it was real pain

{Verse 1}

Hey

Can you lay down with me?

With me? (Can you lay down?)

Faith

Want you way down on your knees

Your knees for me

{Verse 2}

Darling, you don't know the half of it

Say you're mine and I'll forgive

You know that I can't resist (No)

Way back when were in love

Swear you only liked it rough

{Chorus}

I just want you to feel something (So-something)

No, I don't want you to heal

I don't think I'll ever heal

Ooh, why do you feel nothing?

'Cause for me, it was real

At least, for me, it was real pain

{Bridge}

What I'd give to escape this lonely feeling, feeling
I'm alone and it's late, it's a lonely, lonely feeling
What I'd give to escape this lonely feeling, feeling
I'm alone and it's late, 'lo-'lo-'lone and it's late, only

{Chorus}

I just want you to feel something (So-something)

No, I don't want you to heal

I don't think I'll ever heal

Ooh, why do you feel nothing?

'Cause for me, it was real

At least, for me, it was real pain
