

Derek Pope - Grieve

{chorus}

**Too much loss i still grieve when i win
You see the god flow right under my skin
You see the cosmos comin from within
She don't love me she just love me cause i'm him
Took those drugs i lost touch with my limbs
Lost so many friends just to get to where i am man it is what it is what is**

{verse 1}

**Darker days
Light the way
Girls in the hideaway
Don't play do what simon say
They want what pope is on bet you you won't find an 8th
Demons wanna go to war, guess what i got time today
With the switchblades
Shark bait, cutting out a hole in this fish tank
Big escape, this is not a game, this a sweepstakes
High 'til i deflate never be you deepfakes**

{chorus}

{verse 2}

**Nothing drastic
Smoke a little cabbage pop out like it's magic
I need a hattrick of dimes doin backflips**

**Captain, if the ship's sailed make it happen
Stacking, take some (hoo hoo) if you have it
Want it, she want me i just want the moment
Don't it, feel like we following the omens
Show me, are you real?
Are you really rolling?**

{chorus}
