

Anna Thompson - Godzilla

{Verse 1}

Make me in a lab

Give me control of the girls that wanna be so bad

They all flock to me like

"Can you help me get my hands on something a little bit stronger"

And obviously I will comply

I live vicariously through all their eyes

I promise this was never the plan

But if I can't have it nobody can

{Chorus}

Look at all of my creations I always accidentally

Commend them to damnation as soon as they met with me

Why does it cross their minds that "I wanna be just like her"

I'm like Godzilla, king of all the fucking monsters

Oh

(Monsters, monsters, monsters, monsters, monsters)

Oh

(Monsters, monsters, monsters, monsters, monsters)

{Verse 2}

Listen to the noise

When I take a step we watch the city get destroyed

Try to take me down but they're too helpless

I'm just that selfish

Follow in my footsteps you can

Look up to me like I am the man

{Chorus}

Look at all of my creations I always accidentally

Commend them to damnation as soon as they met with me

Why does it cross their minds that "I wanna be just like her"

I'm like Godzilla, king of all the fucking monsters

No

(King of all the fucking monsters, monsters)

(King of all the fucking monsters)

Oh, Oh, Oh

(King of all the fucking monsters)

Oh

(Monsters)

{Outro}

Look at all of my creations I always accidentally

Commend them to damnation as soon as they met with me

Why does it cross their minds that "I wanna be just like her"

I'm like Godzilla, king of all the fucking monsters

Oh (ohh)
